

“My wife and I dreaded the day when we had to shop for new windows. Todd and Tri-State Windows made our decision an easy one. Todd came to our house, brought samples to show and explained to us our best window options for our home. On the day the windows were to be installed by Tri-State, the installation was completed in the estimated amount of time Todd said the job would take. Todd also came back to the house when the job was completed to see if we were satisfied with the work that was done. In the future, when we have more windows installed, I’ll call Tri-State without any hesitation.”
